

Underwater LED Light 4000 Lumen

The Spiro Service SS-UW-Ø35 is an underwater light that uses one LED to provide a good light source in underwater operations. These lights are ideal as video camera lights, mounted on a diving helmet or full-face mask. These lights are voltage controlled via our video systems "SS-VS-WALL" or "SS-VS-CASE."

The lights are built in a rugged anodized aluminum housing. And can withstand the wear and tear of harsh climates and hard use.

Specifications:

MODEL	SS-UW-Ø35
Lumen	4000
Beam Spread	120°
Color Temp.	5000K
LED's	1
Control	Direct voltage control
Power Supply	12vdc 2.4Amp (28 watt)
Dimensions	L 50.2mm x Dia 35mm
Material Housing	Anodized Aluminum
Material Front glass	Mineral glass
Operating Depth	100m max
Connector	MCIL 2M
